

Trend Micro™ TippingPoint™ Security Management System Release Notes

Version 6.6.1

This is a manufacturing-only release, which introduces a major database enhancement improving performance, scalability, and long-term reliability.

Because this is a manufacturing-only release, there is no upgrade path to this software version.

Database restoration

- Restoring database backups from 6.6.0 and 6.6.1 are fully supported.
- Restoring database backups older than 6.4.0 are not allowed.
- Restoring database backups from 6.4.0, 6.5.0 and 6.5.1 are supported. However, restore is only partially supported if the backup contains events. None of the historical data will be restored.
